

**BREVORT TOWNSHIP
ORDINANCE #20-16**

An ordinance

**TO AMEND SECTIONS 5.5, 7.12, AND 9.4
OF TOWNSHIP ORDINANCE NO. 16,
ENTITLED THE
“SEWER USE AND RATE ORDINANCE”**

TOWNSHIP BOARD
BREVORT TOWNSHIP
MACKINAC COUNTY, MICHIGAN

Board Member Peterson, supported by Board Member Rutledge,
moved the adoption of the following ordinance:

ORDINANCE NO. 20-16

**AN ORDINANCE TO AMEND SECTIONS 5.5, 7.12, AND 9.4 OF TOWNSHIP
ORDINANCE NO. 16, ENTITLED THE "SEWER USE AND RATE ORDINANCE"**

The Township of Brevort Ordains:

Section 1. Amendment of Section 5.5. of Township Ordinance No. 16. That
Section 5.5. of Brevort Township Ordinance No. 16, is amended to read in its entirety as
follows:

Section 5.5 Preliminary Treatment of Wastes. The admission into the
public sewers of any waters or wastes having (a) a 5-day Biochemical Oxygen
Demand greater than 300 parts per million by weight, (b) containing more than 350
parts per million by weight of suspended solids, (c) containing any quantity of
substance having the characteristics described in Section 5.2, or (d) having an
average daily flow greater than two percent of the average daily sewage flow of the
Township, shall be subject to the review and approval of the Township. Where
necessary in the opinion of the Township, the Owner shall provide, at its expense,
such preliminary treatment as may be necessary to (a) reduce the Biochemical
Oxygen Demand to 300 parts per million and the suspended solids to 350 parts per
million by weight, (b) reduce objectionable characteristics or constituents to within
the maximum limits provided for in Section 5.2, or (c) control the quantities and rates
of discharge of such waters or wastes.

Plans, specifications, and any other pertinent information relating to proposed
preliminary treatment facilities shall be submitted for the approval of the Township
and the Michigan State Board of Health, and no construction of such facilities shall
be commenced until said approvals are obtained in writing.

Where, due to the strength and character of the waste and the type of
operation the Township determines that the waste is incompatible with the System
and approval for on-site or other waste treatment handling can be obtained from all
regulating agencies, the Township, in its sole discretion, may determine that the
building or use shall not be required to connect to the System, or if connected shall be
disconnected.

Section 2. Amendment of Section 7.12. of Township Ordinance No. 16. That Section 7.12. of Brevort Township Ordinance No. 16, is amended to read in its entirety as follows:

Section 7.12 All Work to be Inspected. All sewer construction work, building sewers, plumbing and drainage systems shall be inspected by a Township inspector to assure compliance with all requirements of the Township. No sewer shall be covered at any point until it has been inspected and approved by a designated inspector. No sewer shall be connected to a public sewer maintained or operated until the work covered by the permit has been completed, inspected and approved by the Township. All sewers shall be tested for leakage in the presence of the designated inspector and shall be cleaned of all debris accumulated from construction operations. If the test proves satisfactory, the Township shall issue a certificate of satisfactory completion.

In the event that sewer construction work is performed by a Township approved contractor, the Township may, in its discretion, waive the inspection of the work, or discount or waive the inspection fee.

Section 3. Amendment of Section 9.4. of Township Ordinance No. 16. That Section 9.4. of Brevort Township Ordinance No. 16, is amended to read in its entirety as follows:

Section 9.4 Late Payment Fees. The System is an enterprise fund that is self sustaining. So, when bills are not paid when due, the rates are higher for other users of the System because the System must have the revenues to pay its costs. There is also a cost to re-bill users, to engage in collection actions, and to obtain funds to meet any funding gaps due to non-payment or delinquent payment of bills. Accordingly, bills not paid within twenty (20) days from the due date shall be delinquent and shall be subject to a late payment/rebilling fee of \$15.00, or such other amount determined by resolution of the Township Board, and interest shall accrue on the unpaid balance from the date the bill became delinquent at the rate of one-half of one percent (0.5%) per calendar month or portion of a calendar month the amount due remains delinquent.

Section 4. Effective Date. This ordinance shall be entered in the minutes of the Township Board and the Ordinance or a summary thereof shall be published once after the passage thereof in the *St. Ignace News*, a newspaper circulated within Brevort Township, and shall not take effect until thirty (30) days shall have elapsed after its publication.

Section 5. Recordation and Filing. Within one week after its publication, the Township Clerk shall record this Ordinance in a book of ordinances kept by her for that purpose, and file an attested copy of the Ordinance with the County Clerk.

TOWNSHIP BOARD BREVORT TOWNSHIP MACKINAC COUNTY, MICHIGAN

Board Member Peterson, supported by Board Member Rutledge moved the adoption of the following ordinance:

ORDINANCE NO. 20-16

AN ORDINANCE TO AMEND SECTIONS 5.5, 7.12, AND 9.4 OF TOWNSHIP ORDINANCE NO. 16, ENTITLED THE "SEWER USE AND RATE ORDINANCE".

The Township of Brevort Ordains:

Section 1: Amendment of Section 5.5 of Township Ordinance No. 16.
That Section 5.5 of Brevort Township Ordinance No. 16, is amended to read in its entirety as follows:

Section 5.5 - Preliminary Treatment of Wastes: The admission into the public sewers of any waters or wastes having (a) a 5-day Biochemical Oxygen Demand greater than 300 parts per million by weight, (b) containing more than 350 parts per million by weight of suspended solids, (c) containing any quantity of substance having the characteristics described in Section 5.2, or (d) having an average daily flow greater than two percent of the average daily sewage flow of the Township, shall be subject to the review and approval of the Township. Where necessary in the opinion of the Township, the Owner shall provide, at its expense, such preliminary treatment as may be necessary to (a) reduce the Biochemical Oxygen Demand to 300 parts per million and the suspended solids to 350 parts per million by weight, (b) reduce objectionable characteristics or constituents to within the maximum limits provided for in Section 5.2 or (c) control the quantities and rates of discharge of such waters or wastes.

Plans, specifications, and any other pertinent information relating to proposed preliminary treatment facilities shall be submitted for the approval of the Township and the Michigan State Board of Health, and no construction of such facilities shall be commenced until said approvals are obtained in writing.

Where, due to the strength and character of the waste and the type of operation the Township determines that the waste is incompatible with the System and approval for on-site or other waste treatment handling can be obtained from all regulating agencies, the Township, in its sole discretion, may determine that the building or use shall not be required to connect to the System, or if connected shall be disconnected.

Section 2: Amendment of Section 7.12 of Township Ordinance No. 16.
That Section 7.12 of Brevort Township Ordinance No. 16, is amended to read in its entirety as follows:

Section 7.12 All Work to Be Inspected. All sewer construction work, building sewers, plumbing and drainage systems shall be inspected by a Township inspector to assure compliance with all requirements of the Township. No sewer shall be covered at any point until it has been inspected and approved by a designated inspector. No sewer shall be connected to a public sewer maintained or operated until the work covered by the permit has been completed, inspected and approved by the Township. All sewers shall be tested for leakage in the presence of the designated inspector and shall be cleaned of all debris accumulated from construction operations. If the test proves satisfactory, the Township shall issue a certificate of satisfactory completion.

In the event that sewer construction work is performed by a Township approved contractor, the Township may, in its discretion, waive the inspection of the work, or discount or waive the inspection fee.

Section 3: Amendment of Section 9.4 of Township Ordinance No. 16. That Section 9.4 of Brevort Township Ordinance No. 16, is amended to read in its entirety as follows:

Section 9.4 Late Payment Fees. The System is an enterprise fund that is self-sustaining. So, when bills are not paid when due, the rates are higher for other users of the System because the System must have the revenues to pay its costs. There is also a cost to re-bill users, to engage in collection actions, and to obtain funds to meet any funding gaps due to non-payment or delinquent payment of bills. Accordingly, bills not paid within twenty (20) days from the due date shall be delinquent and shall be subject to a late payment/rebilling fee of \$15.00, or such other amount determined by resolution of the Township Board, and interest shall accrue on the unpaid balance from the date the bill became delinquent at the rate of one-half of one percent (0.5%) per calendar month or portion of a calendar month the amount due remains delinquent.

Section 4: Effective Date. This ordinance shall be entered in the minutes of the Township Board and the Ordinance or a summary thereof shall be published once after the passage thereof in *The St. Ignace News*, a newspaper circulated within Brevort Township, and shall not take effect until thirty (30) days shall have elapsed after its publication.

Section 5: Recordation and Filing. Within one week after its publication, the Township Clerk shall record this Ordinance in a book of ordinances kept by her for that purpose, and file an attested copy of the Ordinance with the County Clerk.
